Professional Summary

Information Science and Engineering student with experience in Java, React.js, JavaScript, HTML, CSS, MySQL, and AI automation through internships, training, and academic projects. Strong foundation in Object-Oriented Programming (OOP) and Data Structures and Algorithms (DSA), with hands-on experience building backend systems, AI-assisted workflows, and real-world software solutions.

Technical Skills

Programming Languages: Java, JavaScript, C

Web Technologies: HTML, CSS, React.js, Responsive Web Design

Database: MySQL

Core CS: OOP, DSA, DBMS

Tools: Git, GitHub, VS Code

Experience

Backend Engineering Intern (AI Automation)

Jun 2026 – Present

Zephvion Pvt. Ltd.

Hybrid

- Contributing to AI automation workflows for client-facing applications under mentorship.
- Gaining hands-on experience in backend systems that integrate databases with AI-driven automation processes.
- Working with telemetry, logging, microservices, and secure API credential handling as part of ongoing learning.

Java Full Stack & AI Development Trainee

2026 – Present

Apna College – SigmaX Training Program

- Building a strong foundation in Java through Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), and coding practice.
- Developing full-stack applications using HTML, CSS, JavaScript, React.js, and MySQL.
- Exploring AI-integrated software development through hands-on projects and practical implementation.

Projects

Network-Adaptive Women Safety System with Intelligent SOS and Live Tracking

Flutter, Firebase

- Developing a network-adaptive women safety application with intelligent SOS activation and real-time location sharing.
- Integrating cloud-based evidence protection to securely store emergency audio and video recordings.
- Implementing SMS fallback for emergency alerts during low-connectivity situations.
- Incorporating multiple emergency triggers, including manual SOS activation and fall detection.

Java-Based Computational Tool for Chemical Process Optimization

Java

- Developed a Java-based tool to automate scientist-defined chemical calculations.
- Reduced manual computation effort through efficient processing logic.

E-Commerce Shopping Website

React.js

- Built a responsive e-commerce website using reusable React components.
- Implemented product listings, shopping cart functionality, and dynamic user interactions.

Education

Nagarjuna College of Engineering and Technology, Bengaluru

Bachelor of Engineering (B.E.) – Information Science and Engineering

CGPA: 8.59/10

Expected 2027

Morarji Desai Residential PU College, Kamthana

PUC – PCMCs

Percentage: 89.17%

2023

Certifications

- JavaScript – Infosys Springboard
- JavaScript Essentials 1 – Cisco
- CSS – Infosys Springboard
- C Language – Udemy
